Sourcing Goods  
Across The World

**Corporate Brochure | 2023**

# PSI: Premium Sourcing International

PSI provides a comprehensive range of procurement, purchasing, and logistic services to businesses that want to experience the cost-related advantages of sourcing products from overseas.

Our primary objective is to constantly remain one step ahead in dealing with market changes and needs by creating new opportunities and adapting to changes. We offer a one-stop solution to businesses of all sizes operating across a broad spectrum of industries. We rely on our extensive network as well as our demonstrated expertise in meeting the needs of a diverse range of businesses.

As a company dedicated to make global products accessible, our global experience, in-depth expertise, and resources have allowed us to assume a unique market position. We have served a large number of clients in more than 40 countries.

We aim to be a global organization that constantly remains a step ahead in dealing with change, creating new values and opportunities by making trade happen responsibly and innovatively.

# Our Mission and Vision

---

PSI aims to be an internationally recognized provider of a complete range of services to businesses.

To achieve this mission, the company will primarily focus on:

- Providing superior quality experience to our customers
- Insuring complete transparency throughout the process
- Achieving significant cost saving to our customers
- Honoring all our commitments to our clients professionally and on time

Our vision is to be recognized as a global leader in procurement and product sourcing solutions while providing outstanding service and ensuring client satisfaction across a wide spectrum of industries.

# Why Us

---

1

PSI is an outcome-oriented company that aims to make global procurement a cost-effective and efficient business for its customers.

2

We offer end-to-end solutions for all our targeted industries.

3

We ensure you complete transparency throughout the process.

3

Our team comprises of native English, French, Chinese, and Arabic speakers who strive to help you overcome all the cultural and linguistic barriers.

# Our Products

---

Our decision to serve a broader range of industries has helped us acquire skills and resources. We have extended our reach to a large number of suppliers based in different countries.

This extensive network of suppliers allows us to negotiate better prices for our customers. In addition to this, our global reach also enables us to cater to clients, with very specific product requirements.

## Industrial Chemicals

## Food Additives

## Soap & Detergent

## Plastic & Packaging Industry

## Furniture & Mattresses Manufacturing Industry

## Industrial Machinery, Moulds & Equipments

## Iron & Steel Wires

# Our Services

---

At PSI our primary objective is to help you find reliable, cost-effective, and efficient solutions to import goods from overseas.

## Sourcing

In today's highly competitive marketplace, it has become crucial for businesses to offer personalized, branded products, which will help them position themselves against their competitors and seize a bigger market share. PSI helps you achieve this objective in a cost-effective and efficient manner with our OEM and ODM services. Whether you want to customize a product by printing your brand name or logo on it, or you already have a comprehensive product idea and you want our assistance to realize it, we will utilize our vast experience and extensive knowledge to help you achieve your product vision.

---

## OEM Services

Sourcing products can prove to be a very complex and tedious process for businesses of all sizes. Big firms may not have the time to address the complexities associated with the process themselves, while medium-to-small-sized enterprises may have limited resources and little or no experience of global sourcing. Leveraging on our global sourcing network and expertise, we get quotes from the most reliable suppliers and select the one that offers the best quality products at the most reasonable rates.

---

## Purchasing

We provide international and domestic purchasing services for a wide variety of products and categories, from raw materials to finished products, plastics, packaging, machinery, spare parts, and more.

## Quality Management

Through our monitoring system, we ensure that your required specifications are respected Sourcing products for a foreign supplier involves a great deal of risk, particularly when you are working with a supplier for the first time. PSI helps you feel more confident by working first with our existing list of trusted suppliers and inspecting the quality of merchandise when it's needed.

---

## Procurement Consulting

We offer procurement solutions and assistance in various industries on an on-demand basis to help our clients' businesses become more effective, profitable, and successful. We help you achieve your business goals by improving your bottom line through cost reduction and generating new revenue streams. PSI's experience in procurement aims at developing your products and helping you launch new ones by analyzing the market needs and identifying the most appropriate items for your region.

---

## Shipping & Coordination

We assist you with the logistical and shipping procedures, including all required documents needed for customs clearance. We source raw materials, semi-finished and finished products at competitive prices according to our clients' specifications. We strive to provide our customers with the best quality, pricing, and cost savings possible, so we solicit bids from leading suppliers to determine the most competitive quote and delivery time.
